0.1 Individual Project Prompts

1. Make my morning better with an app. Here are some problems (you can think of others):
 - I hit snooze too much
 - Getting out of bed in the morning is hard
 - I turn off my alarm and sleep through it
2. Make my diary / journal / Twitter / blog experience better
 - I want to write / blog / journal every day but have a hard time thinking of what to write
 - I want to publish a status to Facebook and Twitter at the same time, every day, with a picture.
